About

I am a Frontend Developer specialized in HTML, CSS and JavaScript. I create user-oriented interfaces using technologies such as React, TypeScript and Redux. I have a good understanding of MVC architecture, unit tests and database knowledge to develop sustainable and scalable projects. I pay attention to design principles, communication and teamwork.

Education

Associate Degree • Computer Programming

Akdeniz University

Oct 2021 - Jul 2023

I took courses such as Web Programming, System Analysis and Design, Mobile Programming, Object Oriented Programming and Server Operating Systems.

Vocational High School • IT / Web Design

Gölcük, Kocaeli

Oct 2017 - Jul 2021

I studied Web Design within the scope of the Information Technologies department. Initially, I strengthened my C#, Algorithms, then HTML, CSS, PHP skills here.

Experiences

Intern • Bimser Çözüm

Başiskele, Kocaeli, Turkey

Oct 2020 - Jun 2021

- I completed the 'Software Tester Training: From Zero to Advanced Level' course on Udemy. Within this course, I made applications on mobile, web and API tests using test tools such as Jira, Confluence, TestRail, TestLodge, Postman.
- I developed a "Desktop Phone Directory" application using Python and kept the records in SQLite database.
- Using Java, I developed a "Mobile Phonebook" application on Android Studio that provides access to the phone's own database.
- I cloned the web-based game "Agar.io", which I had the opportunity to meet with Socket.IO.
